

Introducing a New Integrated Voice Mail System—Stratagy iES16

Toshiba is excited to announce a new addition to our Stratagy voice mail family, the Stratagy iES16. Like the Stratagy iES32, the Stratagy iES16 is an integrated voice mail system that can be installed in a card slot inside a Strata CTX or Strata CIX system.

The two most significant differences that set the Stratagy iES16 apart from the iES32, is that it is equipped with an industrial grade 2 gigabyte Compact Flash board in lieu of a hard drive for system software and voice storage and, even more importantly, it is priced lower than its iES32 counterpart!

The Compact Flash board that is used in the Stratagy iES16 is state of the art for its combination of storage capacity (offering up to 100 hours of voice storage) and industrial grade specifications, providing premium performance and quality.

The Stratagy iES16 supports a maximum of 16 voice ports, and is available in model increments of 4 ports (4, 8, 12, 16 ports). The Stratagy iES16 also ships with Unified Messaging and 5 client seats standard, and can be configured for all of the advanced applications of the iES32, specifically up to 4 channels of fax and 8 channels of Text to Speech. These two Feature Groups, as well as additional Unified Messaging seats can be ordered using their current part numbers and are enabled using the same process as other Stratagy products.

Sales Training

Sales Training for the Stratagy iES16 voice mail system will be on TUTOR starting 3/31/05. The sessions are scheduled to be live, and will be recorded and posted to TUTOR so that you may go in at a later date and listen to them at your convenience. To log on to TUTOR go to: <http://tsdtutor.tais.net>. Stratagy iES16 Voice Mail System products will also be included in Regional Sales Training classes. If you have any questions, please contact your appropriate Regional Sales Manager or Sales Training Manager.

Availability

Stratagy iES16 is now available for ordering. The new Stratagy iES16 part numbers are;

- IES16-04-SYS – 4 port system
- IES16-08-SYS – 8 port system
- IES16-12-SYS – 12 port system
- IES16-16-SYS – 16 port system

These part numbers are bundled kits that include all necessary cables and documentation for installation. Pricing can be found in the new price book now available on FYI.

Package Part Numbers

These new Strata CTX 100/670 packages include the Strategy iES16 and contain the same CTX equipment as their Strategy iES32 counterparts, and can be ordered using the following package part numbers:

CTX100-4X8CF1	CTX10012X24CF1	CTX670-IES16-LG
CTX100-4X8CF2	CTX10012X24CF2	CTX670-IES16-SM
CTX100-4X8CF3	CTX10012X24CF3	CTX670RM-IES16L
CTX100-4X8CF4	CTX10012X24CF4	CTX670RM-IES16S
CTX100-4X8CF5	CTX10012X24CF5	
CTX100-4X8CF6	CTX10012X24CF6	
CTX100-4X8CF8	CTX10012X24CF8	
CTX100-4X8CF9	CTX10012X24CF9	
CTX100-4X8CF10	CTX10012X24CF10	
CTX100-4X8CF11	CTX10012X24CF11	
CTX100-4X8CF12	CTX10012X24CF12
